6 8) without any problems Now all of a sudden, for no apparent reason, it crashes when I start, Excel, Word, or PowerPoint.. It just started doing this The error code is 0x80048823 How do I fix this? I have already tried restarting my computer.. It comes up as if I'm a new user saying enter product key, sign in to existing acct, or 30 free-trial.. I try signing in and that's when it gives me an error code I tried entering my product key to reinstall it maybe? That's when it said product key invalid.
